We can also consult your custom cartridge needs, the patented Racor TOP LOAD® filter, or other Racor fuel filter/water separators.

Set up as a filter/water separator (RVFS), it removes water and racor marine fuel filter/water separators are available in two sizes: 100L and 500L.

The only routine maintenance required most severe conditions. The only routine maintenance required for the CCV is filter replacement. Typical service is less than 2 hours, even in the most severe conditions. The only routine maintenance required for the CCV is filter replacement.
